Hanson begins by discussing Trump's economic policies. He argues that Trump's tax cuts and deregulation have stimulated the economy and created jobs. He also praises Trump's trade policies, which he argues have protected American workers and businesses from unfair competition.

Hanson then turns to Trump's foreign policy. He argues that Trump has been tough on America's enemies, such as ISIS and Iran. He also praises

Trump's efforts to build a stronger military and to withdraw American troops from foreign wars.

Hanson also addresses the many criticisms of Trump. He argues that Trump is not a racist or a bigot, and that he has actually been a strong supporter of civil rights. He also argues that Trump is not a threat to democracy, and that he has actually strengthened American institutions.

Hanson concludes by arguing that Trump has been a successful president who has made America stronger and more prosperous. He urges Americans to give Trump a chance to continue his work, and to reject the Democrats' attempts to impeach him.
