Ten years ago, the world was shocked by the tragic shooting of Trayvon Martin, an unarmed 17-year-old Black teenager. Martin's death sparked outrage and protests across the country, and it became a rallying cry for the Black Lives Matter movement. In the wake of her son's senseless death, Trayvon's mother, Sybrina Fulton, has become a tireless advocate for justice and an outspoken voice against racial profiling and police violence.

In her new book, *Trayvon Ten Years Later*, Fulton shares her personal journey of grief, anger, and determination. She recounts the harrowing events of that fateful night in 2012, and she describes the years of legal battles and public activism that have followed. Fulton also reflects on the ongoing fight against racial injustice in America, and she offers a powerful call to action for all who believe in justice and equality.

A Mother's Grief

The pain of losing a child is unimaginable. For Sybrina Fulton, the loss of her son Trayvon was compounded by the fact that his death was senseless and preventable. Martin was walking home from a convenience store when he was confronted by George Zimmerman, a neighborhood watch volunteer who suspected him of being a burglar. Zimmerman followed Martin and, after a brief altercation, shot him and killed him.

In the aftermath of her son's death, Fulton was consumed by grief and anger. She could not understand why Zimmerman had killed Trayvon, and she was determined to get justice for her son. Fulton became a vocal advocate for her son and for all victims of senseless violence. She spoke out against racial profiling and police violence, and she called for stricter gun control laws.

A Fight for Justice

Fulton's fight for justice began with the prosecution of George Zimmerman. Zimmerman was eventually acquitted of Martin's murder, but Fulton refused to give up. She continued to speak out against the injustice of her son's death, and she became a leading voice in the Black Lives Matter movement.

Fulton's activism has helped to raise awareness of racial profiling and police violence. She has also been instrumental in passing legislation to reform the criminal justice system and to address racial disparities in policing. In 2018, Fulton helped to pass the Trayvon Martin Law in Florida, which prohibits the use of racial profiling by law enforcement officers.

A Call to Action

Ten years after her son's death, Sybrina Fulton is still fighting for justice. She has become a symbol of hope and resilience for all who have been affected by racial injustice. In her book, *Trayvon Ten Years Later*, Fulton offers a powerful call to action for all who believe in justice and equality.

Fulton believes that we must all work together to create a more just and equitable society. She calls on us to challenge racism and discrimination in all its forms, and to demand accountability from those who abuse their power.

Fulton's message is clear: we cannot afford to wait any longer for justice. We must act now to create a better future for our children.
